Seasoned, forward-looking Software Engineer with a background in creating and executing innovative software solutions to enhance business productivity.

EXPERIENCE:

Software Engineer | Acuments Studio

July 2021 – Present

Chennai, IN

Software development studio specializing in niche technology

- **Xeni:** Worked on custom email services, payment gateway integration, hotel API integration, Multitenant model, performance optimization, test cases, and code cleanup of XeniApp. Successfully reduced 62% of the total page size.
- **JollyHQ Stores:** Involved with the team in the development of a high-impact feature to implement custom domains on JollyHQ stores. Gradually converted a large part of the codebase to Typescript.

Software Engineer | Igesia Inc.

July 2020 – July 2021

Gurugram, IN

A collaboration platform shaping the future of work

- **Igesia Connect (LMS):** I have built some important features for educators and students alike real-time whiteboard and real-time video conferencing.
- **Igesia Health:** Worked on appointment booking, video conferencing, patient management dashboard & scheduling for doctors.
- **Igesia Connect Desktop APP:** Built the app from scratch using electron.js. It's a wrapper around Igesia connect. Solved a critical problem that our users faced when doing Video Conferencing on the Web. Added auto-update using GitHub to auto-update the app on the fly.

EDUCATION:

▪ Bachelor of Technology

Noida Institute of Engineering & Technology

Aug 2014 – July 2018

Greater Noida, IN

▪ Intermediate

Saraswati Vidya Mandir Inter College, Gola Kheri

May 2014

Kheri, IN

▪ High School

Saraswati Vidya Mandir Inter College, Gola Kheri

May 2012

Kheri, IN

SKILLS:

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frameworks & Library:** Node.js, Express.js, React.js, Next.js, Redux, Jest, Redis
- **Desktop App frameworks:** Electron.js, Tauri
- **UI development frameworks & Library:** Bootstrap, Material UI, Tailwind CSS, Chakra UI
- **Databases:** MongoDB, MySQL (beginner), and Firebase
- Webpack, Github, Jira, TDD, Agile, AWS, PWA
